

The background is a watercolor-style illustration. The upper half features a blue sky with soft, white, and light blue clouds. The lower half is filled with vibrant yellow and green foliage, possibly representing trees or bushes, with some darker green and blue accents. The overall style is artistic and painterly.

Cat lover

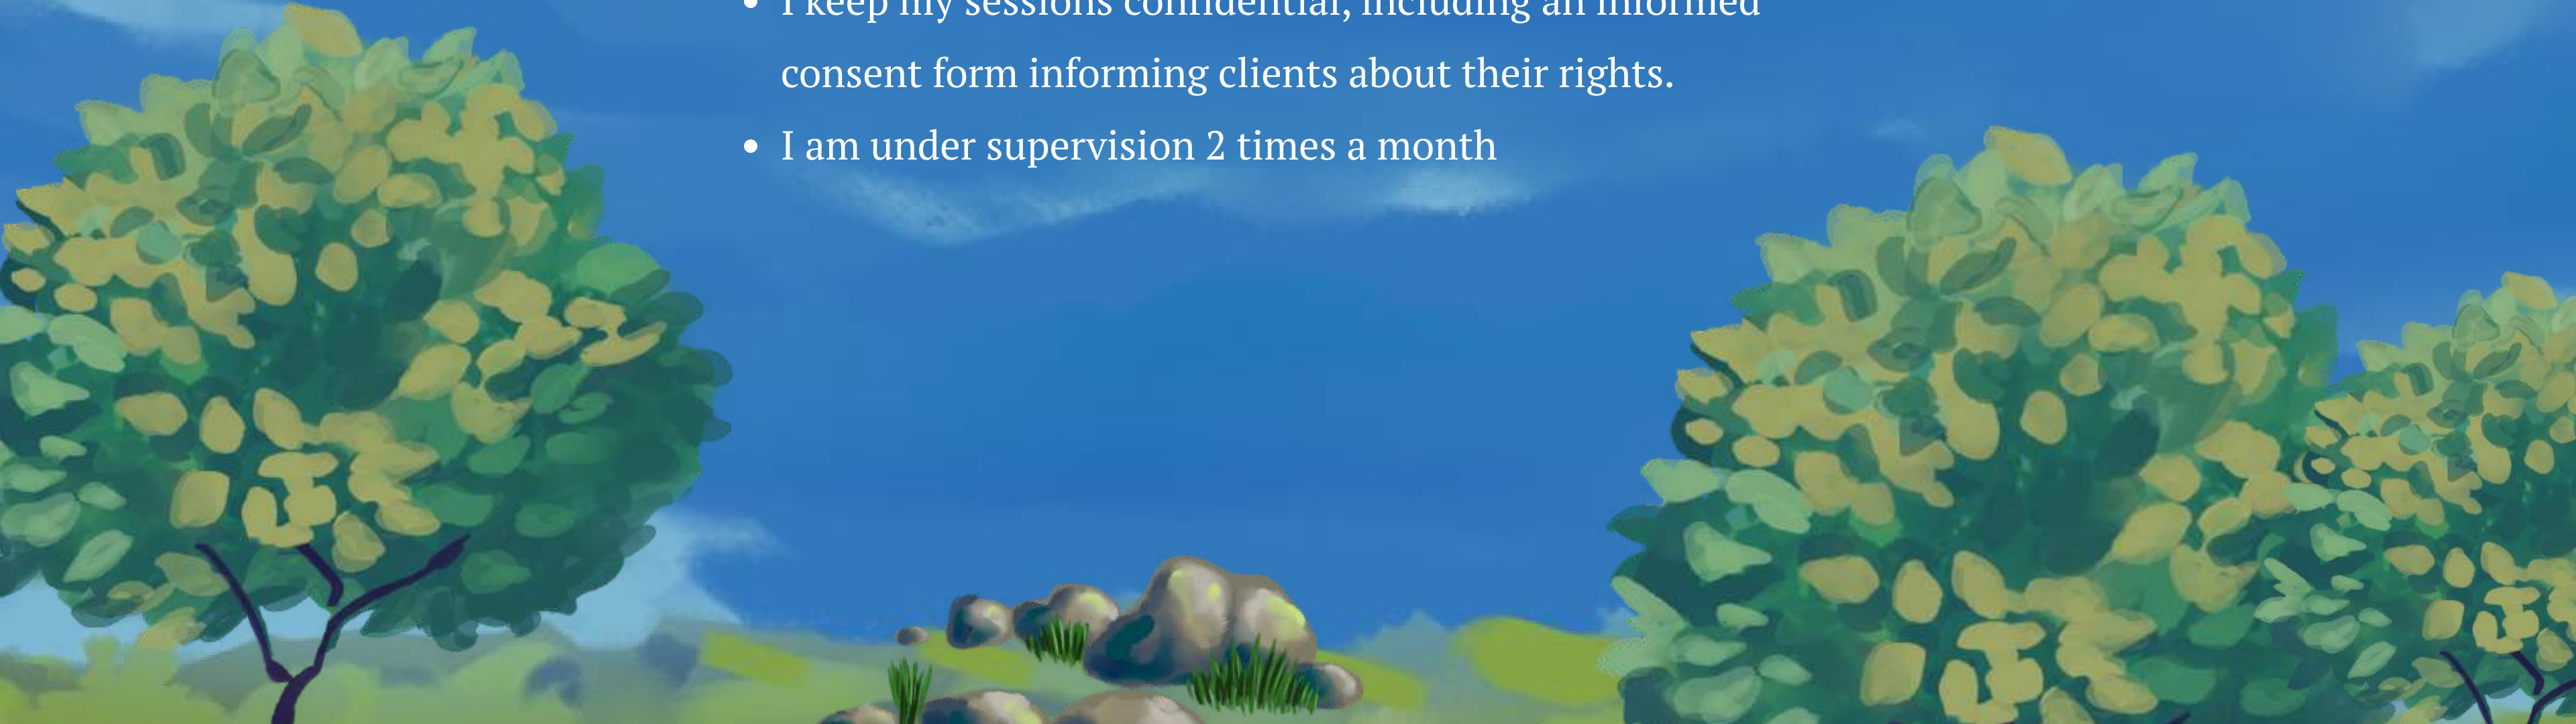

I am an anti capitalist, neurodivergent, queer therapist. I come from an OBC middle class background. I identify as Anti-caste

I am a survivor of abuse and lived experiences, with CPTSD and chronic depression. I cope by surrounding myself with community, art and plants. And this shows up undeniably in my therapy room.

Is my Practice Ethical?

I strive to keep my practice evolving and as ethical as possible in that practice.

- I have graduated with MSC from IIPR
- I keep my sessions confidential, including an informed consent form informing clients about their rights.
- I am under supervision 2 times a month

What is Therapy with me like?

I believe therapy to be like a blank sheet of canvas. You being the colors, it's your art, I'm simply here to witness and hold you while you create something beautiful. I believe in a relational, non directive approach. Meaning i rely on forming deep relationships with my clients in order to create corrective experiences which they can then carry into the real world.

School of Thought

I take an eclectic approach to my practice involving following schools:

- Trauma-informed
- Integrated Somatics
- Existential
- Relational
- Decolonized & Systemic lens
- Narrative Approach

Experience

I have 400+ hours of supervised therapy hours of experience in 1-on-1 sessions and 20 hours of group therapy experience.
